

MINUTES
MASSACHUSETTS AFL/CIO
AUGUST 18, 1988
STORROWTOWN TAVERN, W. SPRINGFIELD, MA

PRESENT: Pres. Osborn, Sec./Treas. Haynes, Vice Presidents Abdow, Alman, Butler, Chigas, Chirillo, Ciejka, Collins, Dart, Farmer, Irvin, Joyce, Kerr, Leahy, LeBlanc, Olivierre, Romano, Simmons, Thomas, Cardinal

ABSENT: Eex. V.P. Lydon (ub), Evers (vac), Faherty (vac), Vice Presidents Burke, Conley, DeRosa (ub), Devlin (ub), Ferin, Ferris Foley (ub), Kâmel, Lima, Mahar, McDevitt, Mills, Mullane, Phinney, Thompson, Walsh, Williams

Meeting opened with a paryer by V.P. Ciejka.

Pres. Osborn swore in Giro Cardinal as a new Vice President of the Massachusetts AFL/CIO.

Pres. Osborn introduced Jim Roosevelt, Maureen Garde and Phil Stanley from the Democratic State Committee.

Maureen Garde thanked the Council for the opportunity to address them. She discussed the National Convention in Atlanta. At the Caucus Meetings it was felt that we will not win the presidential election unless we win Massachusetts. The polls before the Convention were 51% Dukakis and 37% Bush. According to local pollsters, these percentages are still holding. We cannot have a 51% vote in this state. The Democratic party in conjunction with the Democratic National Committee are charged with the duty of running a coordinated campaign for the entire Democratic ticket and referendum. They have their own funding mechanism through their own federal and state accounts to ensure winning the whole democratic ticket and referendum questions. She further discussed the resources - how the volunteers would be asked to go to other New England States - how to use the volunteers, telephone, people who will knock on doors, people who will leaflet - so that everyone will be working together not doing the same thing. She stated that Jim Roosevelt would be discussing legal questions. Several labor unions have asked what they can do or cannot do with their money. Phil Stanley is the Dukakis/Benson State Coordinator in Massachusetts and will discuss the general plan what the campaign wants to accomplish in Massachusetts in conjunction with the State party.

Phil Stanley stated that a variety of things would be done - a grass-roots effort. He discussed the activities:

- Phone banks - four counties would be targeted. Essex, Middlesex, Worcester and Berkshire - they will target the Reagan Democrats. Their goal is to accomplish 1.2 million voter contacts in 2½ months. They will need 155 phones running 7 days a week.
- Voter registration - this will be a very aggressive effort.
- Leaflet program

- Visibility - people holding signs.
- Staff - staffing the regional offices around the state.
- Volunteers to other states - Bill Correto, Constituency office will be contacting labor unions for help. (voter registration and leafletting. This program will begin late Sept./Oct.
- Get out the vote operation - voter contact by phone, visibility and door to door contact. (This will begin 7 to 10 days before the election.)

V.P. Chirillo stated that on election day the Building Trades will be taking it as a vacation day - approximately 20,000 hard hats will be at polling places.

Pres. Osborn stated that they have a strategy that has not been coordinated yet.

J. Roosevelt said that they would work together with us on this effort. He further stated that he thought that a general election should be a holiday as it is in European countries - this would solve voter turn-out in this country. He stated that we are working together in this common cause. He thanked Pres. Osborn and Sec./Treas. Haynes for the invitation. He further mentioned the enthusiasm that was generated from the Convention in Atlanta as opposed to what went on at the Republican Convention. How unhappy they were. He further mentioned the great opportunity we have working for Dukakis and for Lloyd Benson and also the opportunity we have running against Bush and Quayles. Having Quayles on the ticket is an achievement because he gives us the specific votes to draw the contrast. He was the one of the leaders in the Senate against plant closing legislation. To take advantages of these opportunities we have to be able to pay for the kind of effort that Republicans have always been able to pay for.

There are three ways that the Presidential Campaign is paid for because there is no longer a Dukakis for President Committee after the Convention is over. It is paid for by the Democratic National Committee and the Democratic State Committee. The Dukakis Campaign has reached its cap. Now the campaign is paid for in three ways:

- Public funds
- Money raised by the Democratic National Comt.
- Contributions to the State Committee throughout the country.

He further discussed the advantage to contributions to the Democratic State Committee. He said that they can through the State Committee accept COPE/PAC and treasury funds. However, there are changes in the State Campaign Law in 1986-87. Massachusetts has never limited the amount of treasury contributions but the former Director and former legal counsel of the Office of Campaign and Political Finance issued a bulletin, not a law, their view of the law that limited any organization in Massachusetts not registered as a Pac to total contributions for all political purposes to 10% of their treasury. He has met with Alec Gray on challenging this limit. It is important to change and modify this.

He stated that he and Maureen Garde met with the new Director and New Legal Counsel of the Office for Campaign and Political Finance to push the effort of changing this. If this is not changed it will be hard for Labor to afford to support their coordinated effort and also support the Quality of Life Committee.

Pres. Osborn stated that he looked forward to working with the State Committee and only sees one problem which is phone banks and that he is sure of working through it.

Sec./Treas. Haynes asked phil Stanley if it should be a coordinated effort as far as the visibility with signs - elected officials/ballot question.

Phil Stanley stated that he thought it should be.

Sec./Treas. Haynes asked about fundraising - was the state party going to communicate with unions on what they can do so the membership can be notified.

Jim Roosevelt stated that this would be clarified within 10 days and will be going out for general circulation.

Dir. Foley clarified that when you are involved with federal candidates some PAC money is not voluntary contributions - you can get in trouble because you cannot support a federal candidate with that money. You have to make sure when a check is sent to state what it is for.

MMS to accept the minutes of the June Executive Council Meeting. So voted.

PRESIDENT'S REPORT

Pres. Osborn announced that the State has awarded us \$26,000 for the efforts of drug and alcohol abuse for the Massachusetts AFL/CIO awareness program through the Drug/Alcohol Committee. Information will be going out on this program. Pres. Osborn thanked John Laughlin, Chuck Monahan and Joe Joyce for their input.

The President advised that he has been meeting with the Shipyard Wkrs. and the Mass. Water Resource Authority and the Governors people as to what type of lease the shipyard will have. He further discussed that he will have to go back to the Governor and have him personally get involved again because his people are incapable of finishing this owner/operated opening of the shipyard. He stated that Levy is a hard man to deal with and maybe if the Governor gets personally involved the MWRA will stop playing games.

Pres. Osborn announced that two labor people had been appointed to Judgeships for the Wrks. Comp., Tom Evers and Bruc Ferin. Also two pro-Labor people, Helen Merachi from the Bricklayers and also Coleman from Labor Studies. The President further stated that he hoped that with the two judges we will be able to move on some of the backlog. Complaints have been made to the Governor and the Legislature regarding the cutbacks. We are not getting what was comitted to us - a delivery service. The unions and their representatives are angry - people are not being serviced because of these cutbacks. We are working with Assoc. Ind. in these efforts.

Pres. Osborn mentioned the good work of Rich Rogers on the Massachusetts AFL/CIO Special Friends Program and how successful this program is.

The President discussed the upcoming convention which will be a three day-non-constitutional convention and the Prevailing Wage struggle will be highlighted. Also, there will be workshops and some interesting programs.

The President mentioned the reception for Sec./Treas. Haynes as a tribute to him becoming a Trustee of the University of Massachusetts. He also mentioned the good work that V.P. Alman was doing on the Board of Regents.

Pres. Osborn stated that City Year which is a group much like the Peace Corp. for inner city kids.

The President went to the Bricklayers Convention and they are ready to fight for the Prevailing Wage fight. He also went to the Kennedy Comp.

Ptes. Osborn mentioned the situation of modular homes, affordable housing and Bob Minicelli is running into problems with Amy Anthony's group. The President feels that this is a good thing and we are trying to work it through.

Pres. Osborn met with Gerry D'Avlio, lobbyist for the Catholic Church and Exec. Dir. for the Bishops Conference regarding the Prevailing Wage fight. The President wants regional people, central labor council and building trades councils to go forward with meetings to bring this issue to the Catholic Conference. We need the churches support.

The President asked support of the Vice Presidents in putting the bumper stickers on their cars so there will be good cross the state visibility. He further stated that this was a critical issue for all unions not just the building trades. The group that we are up against is campaigning with lies. We must get this to the public. The Sec. of States office is allowing them to put out their argument, a statement to all voters. The Pres. sent the office a letter as Chair of the Quality of Life Committee. They replied saying they cannot deny any side their argument. This is a Corporate, Anti-Union Busting effort here in Massachusetts. The Mass. AFL/CIO staff is working with every ounce of effort on this struggle. This is a priority.

The President attended the Teamster picnic and brought the Prevailing Wage message.

V.P. Alman questioned involvement of outside community groups.

The President mentioned the groups that were involved. They are: Mass. Assoc. of Older Americans, Mass. Citizens Action, Mass. Teachers Assoc., Pay Equity Coalition, Women in Construction, Coalition of Labor Women, Jewish Labor Committee, Nat'l. Org. for Women, Mass. Chapter, Mass. CAP., etc.

V.P. Farmer asked about the plans for the videos. He also said that he had heard that the ABC was going to have a big tv exposure prior to the election.

The President stated that the video is designed for internal campaign building. It should be used at the union hall. There is 80 out and 50 on order. Major monies should be put into tv coverage to match ABC's efforts. He stated that we have bought the last 15 baseball games. The tv channels are playing games. Channel 7 says, subject to change, that they will not do any referendum work. Chanel 5 and 4 will. However, they do not know when.

V.P. Collins raised the question on his concern about the ballot question on power plants. He stated that although the P/W question is very important we should not ignore the other question because if these plants colse, we have dues paying members that will be out of jobs. He further stated that something should be done about this ballot question also.

V.P. Joyce agreed with V.P. Collins and stated without adequate energy we should not ignore the importance of a total shut down. He also said, if there is a laser print out to labor unions in Massachusetts, they should include a message to oppose the total shut down of nuclear energy without alternative sources of energy.

V.P. Joyce asked if there was a letter from Friendly re: their being a member of ABC.

Pres. Osborn advised that he had a problem getting a letter from Friendly stating that they were not a member of ABC. He stated that they have been researched and it was found out that they were in financial difficulty and have been taken over. They called in reply to the letter send by the President and he requested a letter saying that they were not a member of ABC. They did say that they would send a letter but they would state the reason for being out is because of financial problems.

Pres. Osborn stated that we would use this letter to our advantage against ABC.

V.P. Chirillo discussed meetings with the utility companies in his area. He stated that they have spen 12 million dollars on advertising and they would like us to support this issue through our membership. He also said that he thought the videos were the greatest and they have had 100 more made.

V.P. Thomas was concerned that the state and federal employess were not aware of the importance of this issues since it will effect them also. She asked when literature would be going out to these unions so they can learn about this issue directly not indirectly.

Pres. Osborn advised that after Labor Day we will have the capability of getting out this information. We have a small team

working 14 hours a day. We are behind and are working with the resources we have. We do have a public employees piece and we do have an industrial worker piece. We are also working on a service employees and elderly piece. These are forthcoming.

V.P. Thomas state that people have come forward to Pres. Osborn and wanted to explain how this issue would effect their union like Janet Walker from the Federal Emp. and Janic Loxs from the HRW. and they were told to go through the committee.

Pres. Osborn said he never said that and that he only has encouraged Janet Walker. He would sit down with V.P. Thomas and Jane Walker and discuss this matter.

V.P. Romano explained a serious problem in Local 589 and asked for full support of the Council in getting Senate Bill 1812 which is before Public Services passed. This is strictly a Collective Bargaining Bill - the unions on the MBTA have no bargaining privileges. The Carmens union lost 400 jobs - 4 classifications through an act of the legislature passed in 1980 - Chapter 581. V.P. Romano further explained that Local 589 had Management Rights in their contract for 42 years and Collective Bargaining for 75 years and through this bill it was lost. They need help. There are 28 unions that work on the MBTA and a bill has been filed which is Senate 1812. (Literature passed out) They only thing 589 wants is collective rights - the right to bargain over the right to assignment and the right of part time help. V.P. Romano explained that there are 40% partimers on the MBTA (no one gets hired unless they are part time). These part timers have no benefits. This bill is going to be very difficult to pass and 589 would kike everyone to speak favorably on Senate Bill 1812.

V.P. Ollivierre stated that the public employees are having problems in Massachusetts with a deminishing of tax flow. He said that the fact is when you reduce union wages you reduce people ability to pay taxes. V.P. Ollivierre further advised that he has heard from his members that they are disillussioned with the current administration, but they are uncertain as to whether or not to back the Democratic ticket. He said Labor is under attack and we must stick together.

Pres. Osborn stated that he is bothered by the fact that their is never more than 50% attendance of the V.P.'s . What we don't see is participation. We must get out their an talk to our members stated the Pres. we have to link together in regard to all our problems.

V.P. Farmer disagreed with the Pres in his remarks about the Workers' Compensation system working better. He thinks that we are further behind, the back log is greater and adding up, lump sum payments agreed upon are not being paid, etc. He further stated that Workers' Comp. has been reformed but is still not working right. V.P. Farmer also commented on Sen. Michael LoPresti representing non-union developers before the Boston Baord of Appeals. This is a fact, LoPresti does represent non-union developers.

Pres. Osborn stated that his enthusiasm was limited to the appointment of the judges and he there are problems. He further stated that the matter of LoPresti would be discussed at the COPE meeting.

MMS To accept the President's report. So voted.

V.P. Simmons moved to reaffirm Brother Romano's request for support for Senate Bill 1812.

MMS to reaffirm support for MBTA's struggle - Senate 1812. So voted.

SECRETARY/TREASURER'S REPORT

Financial Reprot noted.

The Sec./Treas. reviewed the assets and disbursements and also the Voter Registration Fund. He also mentioned that the Pension Plan has a 0 balance of the 18th of August.

Sec./Treas. mentioned the activity in the office relative to our new computer system - we have been doing work with the Prevailing Wage Committee. Also, trying to get the entire financial operation onto the computer and we may change the affiliate system onto the computer which will give us more capability. Sec. Treas. Haynes stated that he has attended many speaking engagements on behalf of the Quality of Life and he is on the Finance Committee for the P/W issue. There is a major effort going on with the Building Trades. A budget of 2.3 million dollars has been set and we have approximately 900,000. The Sec./Treas. discussed the time he spent with the United Way. He further discussed the ongoing issue of the building and mentioned that the papers had been passed and that we were just waiting for the BRA to finalize. Another issue to be discussed was finances relative to management. He stated that he was not happy with the Bank of N.E. and that we are in the process of changing to U.S. Trust. We will consolidate our 13 accounts into 5.

V.P. Irvin questioned Sec./Treas. Haynes on his pension plan.

Sec./Treas. Haynes stated that the funds had been transferred from Local 7 in lieu of the Health and Welfare that he does not get at the AFL/CIO.

V.P. Farmer questioned banking with U.S. Trust. He stated that some of the building trades unions have been having trouble with them. He asked if we had considered the Carpenters bank.

Sec./Treas. Haynes mentioned that he would do business with U.S. Trust until we had trouble with them and the reason for not doing business with the Carpenters bank is because of the location. We do have some accounts with them.

V.P. Simmons stated that he is having trouble with U.S. Trust and is in the process of taking some of his funds out.

MMS to accept the Secretary/Treasurer's report. So voted.

EDUCATION REPORT

Secretary/Treasuer Haynes discussed the telecommunication contract at the U/Mass. After two years the contract was given to a company called Ericson. He stated that he would have liked AT&T to get the contract because they employ our people but they were not in the final pick. There are many protections for the labor movement in the contract at U/Mass. They will use union people to install the system.

Sec./Treas. Haynes discussed the ad book. He stated that it would be given out at the convention and that the proceeds would go to the Education, Scholarships and retiree funds. He further discussed the report from the May 4th Education seminar. It will be given out at the Convention and there may be a workshop at the Convention.

MMS to accept Education Report. So voted.

LEGISLATIVE REPORT

Dir. Foley discussed legislation that was approved before the end of the session:

- Bill on Third Party Liability on Asbestos - the bill outlaws any third party releases.
- The request of Local 6 on behalf of the court stenographers who they represent.
- Modular Housing Bill

Dir. Foley further stated that there are a couple of other pieces of legislation pending, safety construction dealing with the elevators, Blue Laws and others. He stated that the legislature is scheduled to come back on the 19th of September but he feels there will be no work done until after the election.

Dir. Foley stated that next years issue will be new taxes.

He stated there is a serious fiscal crisis in that the state has issued bonds indebted of 10 billion dollars in this state. Everyone believes there is a fiscal shortfall of hundreds of millions of dollars. We need a revenue package to reduce and deal with this issue. This would probably include sales tax and gasoline tax. These taxes would be regressive and have a negative effect on our members.

MMS to accept the Legislative & COPE Report. So voted.

MMS to move communications to the Executive Officers. So voted.

Pres. Osborn announced that Joseph Joyce would be honored again. He would be the recipient of the Patrick Volpe Award. This message came from John O'Neil from the Boston Cement Masons union.

V.P. Romano thanked the members of the council for their support in Senate Bill 1812 and also mentioned the annual golf tournament. He stated that it was a sell out and he thanked those responsible.

MMS to adjourn. So voted.

AGENDA
MASSACHUSETTS AFL/CIO COUNCIL
EXECUTIVE COUNCIL MEETING
AUGUST 18, 1988
STORROWTON TAVERN, WEST SPRINGFIELD, MA

PRESIDENT'S REPORT

SECRETARY/TREASURER'S REPORT

TO: Executive Council, MA AFL-CIO
FROM: Martin V. Foley, Director
RE: Legislative & COPE Report
DATE: August 18, 1988

LEGISLATIVE REPORT

The summer session has been extremely quiet with little to no movement in the Legislature. We have had two bills signed into law though.

One is on ASBESTOS - this bill outlaws the practice of requiring asbestos workers to sign releases before beginning a job. These releases were aimed at removing third party liability - the hiring group would claim no responsibility or liability for the removal or encapsulation procedure. Now these third party releases are not allowed.

Another bill that was signed recently is the COURT STENOGRAPHERS bill which increased the amount of pay per page for court stenographers working in the state court system. We worked on this bill at the request of OPEIU Local #6. This will bring the pay into line with that paid in federal courts. Local 6 has worked unsuccessfully for several years on this bill.

The bill on SAFETY IN CONSTRUCTION, which provides the Department of Labor & Industries with the power to investigate safety conditions and safety devices in elevators, has moved through the House and is now in the Senate awaiting action. This bill is sponsored by IUEO Local 4 - Edward Sullivan.

COPE REPORT

As in any election year, COPE has been extremely busy over the past several months. Political campaigns are won or lost during the summer over nuts and bolts preparation. The MA AFL-CIO COPE staff has been laying the groundwork for a successful primary and general election campaign cycle.

At this time, meetings on logistical support have either taken place or are scheduled for the following candidates facing opposition in the September 15th primary: Senate President William Bulger; Senator Royal Bolling, Sr.; Senator Francis Doris and Senator Arthur Lewis. Candidates for the House of Representatives whom we are supporting include John Granara - 38th Middlesex; Patricia Toland - 2nd Norfolk and John Stabile - 37th Middlesex. A direct mail program is being designed and implemented by Rich Rogers that will reach approximately 40,000 AFL-CIO members on behalf of the candidates mentioned above.

In addition, Representative Daniel Bosley from the 1st Berkshire has been targeted for support in his general election battle. Other seats may be added to this list and targeted after the primary.

COPE is also working on a day to day basis on the "Quality of Life" campaign. Assistance in developing tactics and strategies and streamlining the field operation are among the tasks that we are performing to assist the efforts to retain the prevailing wage law.

Our voter registration program, which is under way in the public and industrial sectors, is also a COPE priority. We hope to expand participation beyond the current level and to involve all of Massachusetts' labor in this important effort.
